TO: Mr. James White, Fiscal Review Committee  
FROM: Timothy K. Webb, Commissioner *Timothy K. Webb*  
DATE: December 1, 2008  
SUBJECT: Request to appear before Fiscal Review Committee regarding Request for Non-Competitive Contract Amendment RFS# 331.45-015-08

The Department of Education requests a second amendment to the contract with Middle Tennessee State University (MTSU), RFS#331.45-015-08, ED-08-21772. The vendor is responsible for the provision of federally mandated training for new and current teachers in Career and Technical Education (CTE) statewide. The term of the contract remains the same, effective through June 30, 2010. The proposed amendment revises the scope of services in FY09 and FY10 to delete two major activities, reduce the scope of another activity, and adds new activities for FY09 and FY10. The maximum liability decreases by \$46,000.

The new activities are necessary to meet the terms of the approved 2008-09 plan for the Carl D. Perkins Act of 2006. The Perkins Act requires that States begin the use of Technical Skill Assessments to report the performance of student concentrators in Career and Technical Education programs.

MTSU has an office and a website dedicated to CTE Professional Development and has developed the capacity to serve new and changing professional development requirements on very short notice. The MTSU CTE office has provided reports on the costs, revenues, and arrangement details of individual events to assist state staff in planning and budgeting the professional development offerings. At a reasonable cost, MTSU provides virtually seamless event planning and management with excellent customer satisfaction from the event attendees and the State.

Thank you for your assistance in obtaining the necessary approval for this amendment.

14) Description of the Proposed Amendment Effects & Any Additional Service :		
The amendment: <ul style="list-style-type: none"> <li>Removes two major activities and reduces the scope of another activity from FY2009 and FY2010 (Building Bridges Conference and CTE Staff Professional Development Training; Winter and Spring CTE Directors' Meetings)</li> <li>Adds five major activities to FY2009 and FY2010 (Pilot 1 Rubric Training and Focus Group Meeting to FY2009 and Pilot 2 Train the Trainer Rubric Training, Focus Group Meeting, and Technical Skills Exam Roll-out to FY2010)</li> </ul>		

**15) Explanation of Need for the Proposed Amendment :**

The Carl D. Perkins Act of 2006 requires states to finance Technical Skill Assessments for all Career and Technical completers (students who complete programs of study). In the 2008 approved State Perkins Plan, the Division will pilot the use of Rubrics to measure student performance against CTE occupational course competencies. This is in preparation for the adoption and purchase of standardized Technical Skill Assessments for occupational program areas, beginning with Marketing and Health Science in FY10.

The Division needs to re-focus the resources of the contract to accommodate the new activities; specifications for the existing discontinued activities do not accommodate the requirements of the new activities.

**20) Description of Procuring Agency Efforts to Identify Reasonable, Competitive, Procurement Alternatives :**

The Division has not attempted to identify competing arrangements to replace this three year contract because MTSU has an office dedicated to working with CTE that other providers do not have. The Division has a history of excellent service from MTSU.

Surveys have been conducted of other universities to determine the capability for the lodging of approximately 1,500 – 2,000 attendees in addition to the capability of the university's infrastructure to have facilities available for the coordination and execution of the required leadership activities. MTSU is centrally located, offers free or very low cost facilities and services, geographical access to conference facilities is best for the attendees, and ample lodging is available in the immediate surrounding area.

Two other universities in the area, Tennessee State University (TSU) and Tennessee Technological University (TTU) have expressed interest in the coordination and execution of these activities, but the Division has concerns with both universities. In the case of TTU, adequate numbers of acceptable hotel rooms are not available to accommodate the number of participants. In the case of TSU, the university requires a substantially longer period to close out expenditures at the University level than the State is allowed by the Federal Government with regard to Perkins leadership funds. TSU is also located in the metropolitan Nashville area and there is concern about the availability of reasonable rates and ample accommodations for lodging for all the participants.

**21) Justification for the Proposed Non-Competitive Amendment :**

The Department seeks to re-focus its resources while maintaining its multi-year agreement with MTSU for production of conferences and meetings. The Department has an approved plan to comply with the technical skill assessment requirements, and it needs to revise the activity descriptions to fit the substituted activities.

The CTE division has checked with private vendors and the cost is prohibitive. MTSU provides services to the CTE division at a fraction of the cost of private vendors; the fee at MTSU is the cost of the service, if any, plus an 8 percent fee. Other universities contacted inform the CTE division that their costs are similar to the MTSU charges. However, other universities require a longer period to close out expenditures at the university level than the State is allowed by the Federal Government with regard to Perkins Leadership funds. Location of MTSU facilities and area lodging better meet the needs of the conference activities and attendees.

MTSU has an office and a website dedicated to CTE Professional Development, and has developed the capacity to serve new and changing professional development requirements on very short notice. The MTSU CTE office has provided reports on the costs, revenues, and arrangement details of individual events to assist state staff in planning and budgeting the professional development offerings. At a reasonable cost, MTSU provides virtually seamless event planning and management with excellent customer satisfaction from the event attendees and the State.

SUBJECT: Request to appear before Fiscal Review Committee regarding Request for Non-Competitive Contract Amendment RFS# 331.45-015-08

Please consider the enclosed information regarding a request for Non-Competitive Contract Amendment between the Department of Education and Middle Tennessee State University.

The proposed contract amendment will allow the vendor to provide the Federal mandated training for activities for the fiscal years 2009 and 2010. Due to changes in the Perkins IV legislation and a reduction in Perkins IV funding, the Division of Career and Technical Education has had to determine activities to discontinue and still meet Perkins requirements as well as the needs of students. Since the distribution of salaries, benefits, and indirect costs will be distributed throughout fewer activities, the total for each activity has also changed.

We have a three (3) year contract and are amending the two future years. The first year's liability remains at \$750,000.00, and each of the two successive years is reduced to \$486,745.00.

Thank you for your consideration.

The amendment: * Removes two major activities from FY 2009 and FY2010 (Fall Leadership Conferences and School Counselors' Conference). * Reduces the cost of the Summer Conference for FY 2009 and FY 2010 by reducing conference meal service and dormitory use on campus. * Increases payment rates of larger activities due to distribution of salaries and benefits to remaining activities. * Increases payment rates on New Teacher Training (Summer and Winter), Career and Technical Education (CTE) Directors		

Meetings (Fall, Winter, and Spring), and Building Bridges Conference due to significant increases in attendance that require additional food to be ordered and increases in food cost. • Adds the cost of Council meetings (Fall, Winter and Spring) funded by state dollars. • Makes some language revisions to activities to conform to requirements of the funding source.		
<b>15) Explanation of Need for the Proposed Amendment:</b>		
The Division needs to reduce some obligations for Professional Development to finance a new required activity -- Technical Skill Assessments. It elected to discontinue high-cost activities with decreasing attendance. All activities funded by Perkins Leadership funds need to conform to the requirements of the Carl D. Perkins Act of 2006 for content and duration. The Council needs assistance in planning and producing its meetings and offers a different funding source.

<b>20) Description of Procuring Agency Efforts to Identify Reasonable, Competitive, Procurement Alternatives :</b>		
<p>The Division has not attempted to identify competing arrangements to replace this three year contract because MTSU has an office dedicated to working with (CTE) that other providers do not have. The Division has a history of excellent service from MTSU.</p> <p>Surveys have been conducted of other universities to determine the capability for the lodging of approximately 1,500-2,000 attendees in addition to the capability of the university's infrastructure to have facilities available for the coordination and execution of the required leadership activities. MTSU is centrally located, offers free or very low cost facilities and services, geographical access to conference facilities is best for the attendees, and ample lodging is available in the immediate surrounding area.</p> <p>Two other universities in the area, Tennessee State University (TSU) and Tennessee technological University (TTU) have expressed interest in the coordination and execution of these activities, but the Division has concerns with both universities. In the case of TTU, adequate numbers of acceptable hotel rooms are not available to accommodate the number of participants. In the case of TSU, the university requires a substantially longer period to close out expenditures at the University level than the State is allowed by the Federal Government with regard to Perkins leadership funds. TSU is also located in the metropolitan Nashville area and there is concern about the availability of reasonable rates and ample accommodations for lodging for all the participants.</p>		
<b>21) Justification for the Proposed Non-Competitive Amendment :</b>		
<p>The Department seeks to re-focus its resources while maintaining its multi-year agreement with MTSU for production of conferences and meetings. The Department needs to release some of the obligated funds for another purpose, and it needs to provide evidence to the Federal reviewer that all activities funded with Perkins Leadership funds meet the requirements of the 2006 law.</p> <p>The CTE division has checked with private vendors and the cost is prohibitive. MTSU provides services to the CTE division at a fraction of the cost of private vendors; the fee at MTSU is the cost of the service, if any, plus an 8 percent fee. Other universities contacted inform the CTE division that their costs are similar to the MTSU charges. However, other universities require a longer period to close out expenditures at the University level than the State is allowed by the Federal Government with regard to Perkins Leadership funds. The location of MTSU facilities and area lodging better meet the needs of the conference activities and attendees.</p> <p>MTSU has an office and a website dedicated to CTE Professional Development, and has developed the capacity to serve new and changing professional development requirements on very short notice. The MTSU CTE office has provided reports on the costs, revenues, and arrangement details of individual events to assist state staff in planning and budgeting the professional development offerings. At a reasonable cost, MTSU provides virtually seamless event planning and management with excellent customer satisfaction from the event attendees and the State.</p>

RE: Request to appear before Fiscal Review Committee regarding Request for Non-Competitive Contract RFS# 331.45-015-08

Please consider the enclosed information regarding a request for Non-Competitive Contract between the Department and Middle Tennessee State University.

The proposed contract will allow the vendor to provide the Federal mandated training for new and current teachers in the Career and Technical Education field across the State. The Department is responsible for conducting twelve trainings/conferences throughout the year with up to 2500 participants. We have worked with MTSU for the past years on a grant basis; however, it has been determined by the Department that this is a true fee for service arrangement with MTSU.

We are requesting a five (5) year contract to allow consistency in the planning and implementation of this training with an annual cost to the department of approximately \$750,000.00.

Thank you for your consideration.

## 9) Description of Service to be Acquired :

This contract will allow for the purchase of the following services:

- Coordination and execution of professional development workshops at the Career and Technical Education Summer Conference.
- New Teacher Occupational Licensure training.
- Fall Leadership Conferences for all Career and Technical Student Organizations.
- School Counselors' Training Institute
- Taskforce study group meetings on issues to be developed and presented to the State Board of Education.
- Sessions to educate practitioners on changing requirements of the federal law.
- Workshop for entire CTE division staff.

## 10) Explanation of the Need for or Requirement Placed on the Procuring Agency to Acquire the Service :

Carl Perkins legislation requires that Career and Technical Education provide leadership activities for the Career and Technical students, teachers and directors across the state of Tennessee. The CTE Division does not have the in-house capacity to plan,

manage, and execute the number, variety, and size of professional development events included in the scope of this contract.		
<b>11) Explanation of Whether the Procuring Agency Bought the Service in the Past, &amp; if so, What Procurement Method It Used :</b>		
In prior years, the state agency has made grants to Middle Tennessee State University to provide professional development.  It has been determined that these should have been fee for service contracts and therefore, in conjunction with the reauthorized Perkins Act, the State wishes to make this a fee for service arrangement.		
<b>12) Name &amp; Address of the Proposed Contractor's Principal Owner(s) :</b> (not required if proposed contractor is a state education institution)		
Middle Tennessee State University Murfreesboro, TN		
<b>13) Evidence of the Proposed Contractor's Experience and Length of Experience Providing the Service :</b>		
Middle Tennessee State University has 20+ years of experience in the coordination and execution of the required leadership activities.

<p>Surveys have been conducted of other university areas to determine the capability for the lodging of approximately 1,500 - 2000 attendees in addition to the capability of the university's infrastructure to have facilities available for the coordination and execution of the required leadership activities. MTSU is centrally located, offers free facilities or very low cost facilities and services, geographical access to conference facilities is best for the attendees, and ample lodging is available both on campus and in the immediate surrounding area.</p> <p>Two other universities in the area, TSU and Tennessee Technological University (TTU) have expressed interest in the coordination and execution of these activities, but the Division has concerns with both universities. In the case of TTU, adequate numbers of acceptable hotel rooms are not available to accommodate the number of participants. TSU is also located in the metropolitan Nashville area and there is concern about the availability of reasonable rates and ample accommodations for lodging for all the participants.</p>		
<b>18) Justification of Why the State Should Use Non-Competitive Negotiation Rather Than a Competitive Process :</b> (Being the "only known" or "best" service provider to perform the service as desired will not be deemed adequate justification.)		
<p>The CTE division has checked with private vendors and the cost is prohibitive. MTSU provides services to the CTE division at a fraction of the cost of private vendors; the fee at MTSU is cost of the service, if at all, plus an 8 percent fee. Other universities contacted inform the CTE division that their costs are similar to the MTSU charges. However, other universities require a longer period to close out expenditures at the university level than the State is allowed by the Federal Government with regards to Perkins Leadership funds.
